**Civil Service Certificate - Professional**  
August 20, 2023

**Safety Officer 2 (SO2)**  
March 23, 2023

# Projects & Achievements

## **DEVELOPMENT OF A DTR LOG-IN SYSTEM USING FACE RECOGNITION AT TUP VISAYAS**

Collaborated with a team of six to develop an IoT and software based facial recognition gate system for automated employee log recording and gate security.

## **PROPERTY MANAGEMENT LEDGER SYSTEM FOR THE GENERAL SERVICE OFFICE**

Developed a ledger system that improved processing speed by 400%, efficiently displayed reports, securely stored transaction data, and enhanced transparency for the other collaborative offices.

## **PASABAY APP**

Led a team of eleven to develop a food delivery mobile app inspired by the traditional Filipino concept of "Paluto sa Bahay." The app allows users to become certified home cooks and showcase their menus for customer orders.

## **GENERAL SERVICE OFFICE QUEUING SYSTEM**

Developed a queuing system for the General Service Office to manage customer and client congestion effectively. The system is accessible via both web and mobile applications, providing real-time updates on the availability of all offices service.

## **PROVINCIAL GOVERNMENT OF NEGROS OCCIDENTAL BUDGET MANAGEMENT SYSTEM**

Led a team of three to develop a web-based budget management system, enhancing the previous system's efficiency by 200% and improving network accessibility for related offices. The system streamlines processes such as budget account management and donations, featuring dynamic reporting capabilities for each module.

## **PROVINCIAL SUPPLIES DISTRIBUTION SYSTEM**

Developed a online web-based supplies distribution system for the Provincial Government of Negros Occidental, enabling offices to request and track supplies efficiently while streamlining fulfillment by the distribution operator.

## **ADVANCE EDUCATIONAL SMART SYSTEM(AESS)**

Developed an online university education tracker that enables teachers to create assessments and modules for students, while monitoring student progress and managing other entities within the system for hybrid learning.

## **FURNITURE E-COMMERCE**

Developed an e-commerce platform for a furniture store, featuring a customer shopping page, along with a unique inventory and delivery management system.
